I. Statement of Reasons for Allowance:

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art cited herein fails to disclose a tag secured to an object for monitoring the object comprising a strap with a first end, a second end, an electrical path coupled to the strap running from the first end to the second end, one or more raised portions wherein a proximal end and a distal end of the electrical path are on the one or more raised portions, a cradle, an integrated circuit with a first contact and a second contact wherein the first contact electrically couples to the proximal end of the electrical path and the second contract electrically couples to the distal end of the electrical path.

Regarding claim 16, the prior art cited herein fails to disclose a tag secured to an object for monitoring the object comprising a strap with a first end, a second end, an electrical path, a cradle, an integrated circuit with a first contact and a second contact, the integrated circuit monitoring one or more electrical properties of the path, and a transmitter radiating a radio wave through the electrical path when the one or more electrical properties change, wherein the strap and the electrical path have a break point at a location in which the length of the electrical path equals a multiple of the wavelength of a frequency of transmission.

Regarding claim 21, the prior art cited herein fails to disclose a tag secured to an object for monitoring the object comprising an object proximity detector, a motion sensor, a transmitter, a monitoring system, and an integrated circuit, wherein the circuit

signals the monitoring system via the transmitter when the proximity detector is separated from the object and wherein the integrated circuit substantially reduces communications from the transmitter when the motion sensor detects a motionless state for a period of time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anh V. La whose telephone number is (571) 272-2970. The examiner can normally be reached on Mon-Fri from 9:30am to 6:00pm.
